Applicants have amended the claims to add new claim 13, which was inadvertently omitted from the above-referenced continuation application. Support for new claim 13 can be found in claim 13 as originally filed in the priority application, PCT/US02/15878. Support for new claim 13 can also be found in the specification at least at page 9, lines 3-11, where Applicants teach that test compounds may be selected from a combinatorial library. Applicants have amended claim 14 to correct a typographical error. The amendments presented herein add no new matter.

In response to the Notice to File Missing Parts mailed September 8, 2004, Applicants have enclosed herewith a sequence listing that contains the sequences shown in the specification. In accordance with 37 C.F.R. § 1.821(c), enclosed is a paper copy of the Sequence Listing. Applicants respectfully request that the application be amended to include the paper copy of the sequence listing as part of the application.

In accordance with 37 C.F.R. § 1.821(e), enclosed is a 3.5 inch computer disk that contains a computer readable form of the paper Sequence Listing.
